

# "TAKE PARIS OR GERMANY WILL DIE," ORDER OF THE KAISER

made responsible for a report, widely circulated here to-day, that Pau's troops "wiped out an entire German army corps."

## GERMAN REPORT

BERLIN (via The Hague), Aug. 31 (United Press).—In an official statement issued by the German War Office it is declared that the German arms are victorious in the west and in the east.

It is stated that in France the German advance continues and that the British troops, operating in conjunction with the French, are now cut off from their base through the flanking movement of the Germans in northwestern France.

A strong German column is now declared to be interposed between the British army operating in the field and the sea-coast cities where reinforcements have been landed.

As a result the British field army must now receive its supplies and any additional men by a roundabout route, which will interfere with its effectiveness as a fighting unit.

The announcement also states that the German advance on Paris is again being pushed and the emphatic prediction is made that the capital itself will be threatened very soon.

The fighting in the region of the Vosges still continues, it is stated, with the issue still in doubt. The German forces in this section have sustained heavy losses by virtue of the nature of the battleground and because the French forces are strongly entrenched on the heights.

The lists of the casualties of Gen. von Herringen's forces, which are bearing the brunt of this fighting, show that many officers have been killed and wounded.

## BRITISH REPORT.

LONDON, Aug. 31 (Associated Press).—Heavy firing was heard at Dover this morning which appeared to come from vessels along the French coast. The Official Bureau, it is announced, has no information on the subject.

LONDON, Aug. 31 (United Press).—According to the Times, wounded German officers and soldiers, taken prisoners, all agree that the orders issued by the Emperor to the army of invasion in effect said:

"You will take Paris or all Germany will die."

## BULGARIAN REPORT

SOFIA, Aug. 31 (United Press).—Reports from Constantinople that the efforts of the German diplomatic representatives there to get Turkey to take an active part in the European war as an ally of Germany and Austria have created a sensation here.

It is stated officially that the Bulgarian Government is now pledged to join with Greece, Roumania, Serbia and Montenegro as allies of Russia and against Turkey should the latter decide to fight.

The Bulgarian army is semi-mobilized and could be put in the field at once. Messages received here from Constantinople say that the Turkish Army and Navy are ready for action and that most of the Turkish warships now have strong contingents of German sailors and officers on board.

## SERBIAN REPORT.

NISH (via Rome), Aug. 31 (United Press).—A real invasion of Austria is planned by the Serbian General Staff. The entire Serbian army, with the exception of the small force required to hold the roads toward the temporary capital, is being massed along the Drina and will cross into Bosnia between Lomnica and Srebrenik.

Assurances that the Bosnians will rise and rally to the support of the Serbians once they are well within the borders have been received. The racial hatred of the Bosnians against the Austrians has been fanned by Serbian agents, who have been spreading the doctrine of rebellion throughout the country, and high Serbian officials insist that a general revolution is certain. This will make it possible for the Serbians to push right on through the province without detaching heavy columns of troops to guard the lines of communication.

## AUSTRIAN REPORT.

BERLIN, Aug. 28, via Copenhagen and London, Aug. 31 (Associated Press).—The following account of Austrian operations has been received in Berlin from an official Austrian source:

"In the Austro-Russian theatre of war decisive battles have been in progress for several days. Our forces, which were victorious near Krasnik, pursued the Russians in the direction of Lublin. The Austrians advanced also into the enemy's territory between the rivers Bug and Wieprz, and we have taken positions in front of Zamosc."

## GERMANY AND ENGLAND PERMIT U.S. TO CENSOR THEIR CODED WIRELESS

WASHINGTON, Aug. 31.—Both Germany and Great Britain have agreed to the proposal of the United States that the wireless stations at Tuckerton, N. J., and Sayville, L. I., be permitted to send code messages to belligerent countries, subject to censorship by American naval officers.

The Tuckerton station has been closed because it had no license from the Department of Commerce, but it is understood that arrangements are under way for its reopening. The Sayville station, which is owned by the German Government, and it is considered probable that the British and French cables be used for messages at the American end of the wireless stations by subjects of belligerent nations.

Both Germany and Great Britain refused an impracticable suggestion that British and French cables be used for messages to all belligerents previously censored by the United States.

NEWPORT SOCIETY BAZAAR ADDS \$40,000 TO FUND OF RED CROSS.

(Special to The Evening World.)  
NEWPORT, R. I., Aug. 31.—The Finance Committee of the Newport Bazaar of the International Red Cross Society to-day tallied the receipts of the recent bazaar and tabulated held at the residence of Mrs. Vanderbilt and on the grounds. The net amount realized was slightly in excess of \$40,000, which will be forwarded to the Red Cross Society of Washington to-night by Express.

## CZAR'S TROOPS SMASH AUSTRIAN LEFT ARMY

(Continued from First Page.)

Despatches from the front telling of the outbreak have caused the utmost satisfaction in official circles following the proclamation issued by the Czar to the Poles shortly after hostilities began.

Disaffection has also broken out among the Slav regiments in the Austrian army, according to advices here. It is reported that one entire regiment deserted its colors and joined the Russians.

LONDON, Aug. 31 (Associated Press).—The St. Petersburg correspondent of the Post, discussing the military situation in Russia, says: "The relative situations of Germany and Russia, after a month of war, are shown admirably in contrast by the German action in summoning the schoolboys to the colors and Russia's decision to-day to grant six weeks' leave of absence to the reservists of the 1907 term of service."

"These reservists have recently been with the colors at different depots brushing up their military knowledge preparatory to a call to the front. To-day it was found possible to allow them to return home for a nominal term of six weeks. They are to hold themselves in readiness to respond to the next call."

"It is reported that some of the men took the permission to return home most grudgingly, as they had counted on a quick advance to the front."

"Russia can thus in the heat of a hard-fought war afford to let something like half a million mobilized reservists go home again."

"On the Austrian front obstinate fighting continues. The Russians have taken 3,000 prisoners east of Lemberg and 1,000 near Tomacheff, while east of that centre the Fifteenth Hungarian Division was surrounded and whole regiments are surrendering."

"The main objective of the Austrians appears to be Lublin, where desperate fighting is in progress."

## GERMAN REPORT.

BERLIN, Aug. 31 (by wireless telegraphy to the Associated Press via Sayville, L. I.).—It was officially announced here to-day that about 20,000 Russians had been taken prisoners by the Germans during the fighting in East Prussia, particularly at Ortelsburg, Hohenstein and Tannenberg. They include many officers of high rank.

The German attack at these three points was across swamps and lakes. LONDON, Aug. 31 (Associated Press).—An official telegram declares that fresh forces of Germans have made their appearance on the Prussian front, and that at some points they are taking the offensive against the Russians.

The great Russian army continues on the offensive along its entire 100-mile front of advance in Eastern Prussia and Galicia. Official reports here declare that the fortresses of Thorn and Graudenz on the vistula have been invested. The Russians have heavy siege guns in operation. The second Russian invading army has reached Eastern Prussia to reinforce the first.

## BRITISH COLLIER SUNK BY A GERMAN CRUISER

Crew Carried to Rio de Janeiro by a Chartered Steamer of Munson Line.

News of the sinking of a British collier by a German cruiser on the high seas reached this city to-day in a cablegram from Rio de Janeiro to the Munson Steamship line offices at No. 82 Beaver street.

The cablegram, which was meagre of details, stated that the chartered steamer Katherine Park of the Munson Line had arrived to-day at Rio with the crew of the British steamer Holmwood, which had been sunk at sea by a German cruiser.

The Holmwood left Newport, England, on July 29 with a cargo of coal for Bahai Blanca, Argentine Confederation. The position of the vessel at the time of the cruiser's attack was not given, nor was the number of the crew.

The Alert Baseball Club of Brooklyn defeated the Cedarhurst team, 7 to 6, yesterday at Cedarhurst, L. I. Litchy, who pitched for the winners, had the best team of his money throughout the contest.

## BOARD OF NEUTRALITY TO DETERMINE STATUS OF LINER ADRIATIC.

WASHINGTON, Aug. 31.—(Associated Press.) The status of the White Star liner Adriatic, of the British Naval Reserve, which reached New York Saturday with guns mounted and a small quantity of ammunition aboard, will be determined by the special board of neutrality of the State and Navy Departments.

A telegram was received to-day at the Treasury from Collector Malone at New York, announcing the arrival of the Adriatic and saying her captain declared the guns were carried only for protection and that the steamer would leave New York Sept. 2.

## WILSON HAS ROUND OF GOLF.

Favored by Good Weather, President Also Enjoys Auto Ride.

CORNISH, N. H., Aug. 31.—With the prospects good for clear weather, President Wilson motored to Hanover today for a round of golf with his physician, Dr. C. T. Grayson. Later he took a long automobile ride.

The President is making no plans to go on a speaking tour during the fall campaign, and the prospects are that he will make no such trip, although he has taken under consideration requests of Democratic leaders in Connecticut, Pennsylvania and other States that he should in their districts.

## COMBINED FLEETS AID MONTENEGRINS TO ROUT AUSTRIANS

Warships Disregard Mines and Use Guns on Land Forces, Winning Victory.

CETTINJE, Aug. 31 (United Press).—The combined British and French fleets have again saved the Montenegrin positions on Mount Lovcen, from which they have been reducing the defenses of Cattaro.

On Sunday 10,000 Austrians, heavily supported by cannon, began an assault on the Montenegrin positions. They had put two of the Montenegrin batteries out of commission when the English and French fleets arrived and immediately attacked the Austrians.

The ships, disregarding the chances of floating mines, moved close inshore and shelled the Austrians, killing many of them.

Prince Peter of Montenegro, headed a counter attack of Montenegrins and they brilliantly charged the Austrians, smashing through their lines, killing many of them and taking several hundred prisoners.

The Montenegrins also took nearly all of the Austrian cannon and munitions and drove the remnants of the expedition almost into Cattaro.

## ONLY TEN HOUSES LEFT STANDING IN LOUVAIN, IS REPORT FROM ANTWERP.

By E. Alexander Powell.  
Copyright, 1914, by The Press Publishing Co.

ANTWERP, Aug. 31.—I am sorry to say that stories of the sack of Louvain, slowly steeping in, in no way ameliorate the original tale of horror. The few refugees who have arrived here are stupefied by their frightful experiences.

It was a night of indescribable horror. The Germans broke into the wine shops early in the evening and a drunken orgy ensued, participated in by both officers and men.

I am informed by a high Government official that in the former city of 50,000 people only ten houses remain standing.

The Germans seem to have vented their greatest fury on the priests, of whom a large number were attending the university. The Government understands most of them were butchered under revolting circumstances.

Many inquiries were made to-day of the American consulate regarding fifty American priests known to have been in the city, but thus far no definite information is available. In this war the casocock has been a provocation instead of a protection, for innumerable cases have come to my attention of priests shot or bayoneted by Germans while caring for wounded.

Following their policy of ruthless destruction, the Germans have demolished the hamlet of Hoyt-op-den-Berg, demolishing most of its houses.

## WOMAN COUSIN OF CZAR SERVES WOUNDED SOLDIERS IN A DEPOT IN PARIS.

PARIS, Aug. 31 (Associated Press).—Among the Red Cross nurses at the Eastern railroad station when wounded soldiers came from Peronne and Guise were Mme. Verola, cousin of the Emperor of Russia; her daughter, Countess Moroyoff, and Princess Ghila. Many society women were also present and prepared food for the wounded soldiers.
